PROFESSIONAL SUMMARY

Results-driven Frontend Developer with hands-on experience building modern web applications using React, TypeScript and Tailwind CSS, backed by a strong foundation in accounting and customer service. Skilled in building responsive user interfaces, financial reporting, and client relations. Proven problem-solver with a track record of streamlining processes and enhancing customer satisfaction.

EDUCATION

UNIVERSITY OF PROFESSIONAL STUDIES, ACCRA.
Bachelor of Science in Accounting. AUGUST 2019 -2023

MAWULI SCHOOL, HO.

Business. 2016 – JINE 2019

TRAINING & CERTIFICATION

- Training on GIFMIS at CSIR-IIR FEBRUARY 2024
- Responsive Web Design on Free Code Camp SEPTEMBER 2024

PROJECT

- Church Management System (CMS): Contributed to a multi-tenant church management SaaS platform for Ghanaian churches, built with React, TypeScript, Tailwind CSS and a microfrontend architecture (Vite + Module Federation), with features such as role-based access control, QR code check-in, member and group management, and tenant theming.
- HR Management System: Led the frontend development of the BST HR Management System using React, TypeScript and Tailwind CSS, with modules for payroll, onboarding and employee management.
- Expense Tracker: Built an expense tracking app to record, categorise and monitor daily spending and budgets.
- Built a comprehensive Google Sheets-based Point of Sale (POS) System using Google Apps Script and Google sheets. The system provides complete retail management with barcode scanning, inventory tracking, sales processing, and professional receipt generation.
- Calculator project using HTML, CSS and JavaScript.
- Weather App using HTML, CSS, and JavaScript with OpenWeather API.
- Temperature converter using HTML, CSS, and JavaScript.

PROFESSIONAL EXPERIENCE

BCON SOFT TECHNOLOGIES || ABOKOBI APRIL 2025 – PRESENT

FRONTEND DEVELOPER

- Lead the frontend development of the BST HR Management System (payroll, onboarding and employee management).
- Contribute as a team member to a multi-tenant church management SaaS platform.
